

JEBASINGH SUNDERSON I

About Me

Self-motivated and curious college student with a strong foundation in programming (python and java) and a passion for building practical applications. Strong analytical thinker with a creative edge—actively exploring side projects and eager to solve real-world problems through code.

Coding Language known

C#, C, python, java
html, css, javascript

Skill rack

- C - 827
- Java - 391
- C++ - 81
- python - 288

Total solved - 1587

Leet code

Solved count - 89

Hobbies

- Instruments- (piano, guitar & harmonica)
- Drawing
- Chess

Education

SSLC

MCC Matric School (10th - 92.6%)

HSC

Zion Higher Secondary School (12th - 91.3%)

St. Josephs College of Engineering

B.E - Computer Science Engineering (CGPA -8.61),
currently pursuing 2nd year

Project

Unity - Game Engine

- Developed multiple 2D games using C# language.
- Joined *The GameDev.tv Game Jam 2023* competition and published a game at itch.io
<https://itch.io/jam/gamedevtv-jam-2023/rate/2093354>

Full Stack

- Learned and created website using html, css, javascript for front end and using node.js, express framework for back end
- Updated *information for college website*
(<https://stjosephstechnology.ac.in/web/mech/index.php>)

Machine learning

- Created ml model to predict price of bulldozer in jupyter notebook

Experience

Hack-Ai-thon 2.0

Participated in National level hackathon and built classification and regression models to predict optimum crop, yield and fertilizer and deployed using flask api

Offline Internship – Xebia, Chennai

Tech Intern (OutSystems) | Nov 2025 – Dec 2025 [20 days | on-site]

- Underwent structured, hands-on training in the OutSystems low-code development platform
- Gained exposure to enterprise application architecture, UI/UX flow, and SDLC practices
- Built web application screens and workflows, data entities, and implemented CRUD operations with business logic, server-client actions

Certificates

Nptel

Python for Data science(2025) - Placed **top 5%** in the exam
Scored **85%**

Demystifying networking(2025) - Scored **70%**

Udemy

C# Unity Game Developer 2D (2023)

Infosys Springboard

- Probability Distributions Getting Started with Probability Distributions
- Probability Theory Creating Bayesian Models
- Programming Fundamentals using Python
- Probability Theory: Understanding Joint, Marginal, & Conditional Probability

CODEFEST competition (2025).

Received 3rd prize in Geeks for Geeks coding competition
